**Prof Kave Shams** is an Associate Clinical Professor and Honorary Consultant Dermatologist at the University of Leeds.

He is the co-lead of the Biologics-Psoriasis- and Hidradenitis Suppurativa services, and the lead for the Dermatology Clinical Trials Unit. Dr Shams is the principal investigator and chief investigator for a range of clinical trials across multiple disease areas. His research focuses on inflammatory skin disorders and in particular leukocyte migration and its role in skin disease.

This non-promotional meeting is organised and funded by Novartis Ireland Ltd. The objective of the meeting is to support medical education in the area of dermatology.
